2018

Dream. Plan. Do.

Collaboration, community and leadership are core to the WMI Scholar's journey and it is in that spirit that we created our first Dream Big Conference in 2015. Hugely successful, the event brought over 45 of our Student and Graduate Scholars together in Nairobi, Kenya to share ideas and experiences, learn new skills, meet with business leaders and philanthropists, and motivate each other - and us - to achieve even greater things. In response to the tremendous positive feedback received from all the attendees, we have committed to organizing this event every three years.

From **June 27 to July 1, 2018** we will be hosting our second Dream Big Conference, in **Kampala, Uganda**.

In 2018, we are dreaming even bigger!

Open to all WMI Student and Graduate Scholars, the Dream Big Conference provides participants the opportunity to learn, network, and create in-country fellowship groups. Attendees are provided partial travel stipends and are encouraged to raise funds themselves to make this opportunity a reality.

In 2015, the first Dream Big Conference welcomed 45 WMI Student and Graduate Scholars from 9 countries. In 2018, we are dreaming even bigger! We are more than doubling our attendance and in response to the positive feedback received from all attendees, adding an extra day of panels and workshops.

Our goal is to support 100 scholars to embark on a 4-day journey filled with professional development opportunities led by international business and community leaders, as well as issue area experts.

Student and Graduate Scholars will participate in the following conference topics:

RESUME & CV
DEVELOPMENT

PROFESSIONAL
DEVELOPMENT

NETWORKING

SOCIAL
ENTREPRENEURSHIP

BUSINESS
DEVELOPMENT

PUBLIC
SPEAKING

LEADERSHIP

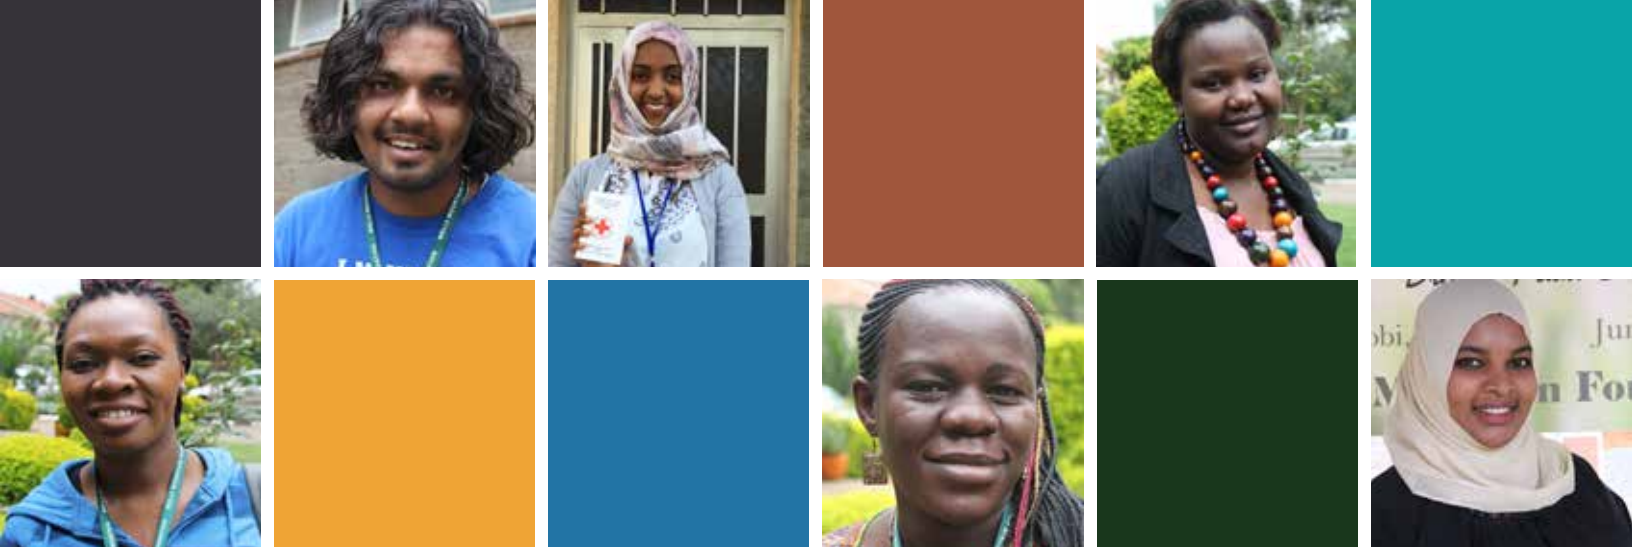

COMMUNITY BUILDING

HOW TO GIVE BACK

NON-PROFIT & CBO
DEVELOPMENT

Dream Big Conference 2015

WHAT OUR SCHOLARS SAY

Catherine Nagadya
Graduate Scholar, Uganda

I'm taking away so many friendships and so many networks. I'm inspired and energized to be better and to impact my community.

Abe Manasi Lori
Student Scholar, South Sudan

The conference equipped me with (an understanding of) how I can give back to my community. I have problems in my community. I didn't know how those problems could be solved. But what I realized here was that I am the solution to the problem.

Raj Prasad Rauniyar
Student Scholar, Nepal

We are few. But still we can change the whole world.
